Procedure

There are 10 steps to complete this process.

SAP Easy Access

Image

Step 1. Update the following **required** and **optional** fields.

Field Name	Description	Values
Command	White alphanumeric box in upper left corner used to input transaction codes.	Enter value in Command. Example: PC_PAYRESULT

Step 2. Click **Enter**.

Image

Step 3. Update the following **required** and **optional** fields.

Field Name	Description	Values
Personnel number	Unique number identifying an individual's master record data in the system.	Enter value in Personnel number. Example: 80001035

Step 4. Click **Transfer (Enter)**.

Note: To have multiple employees listed on the left, enter each employee's personnel number and click **Enter**.

Image

Step 5. Select the desired payroll result row.

Image

You can view results on each employee by selecting that employee. When toggling between employees, always verify the name on the left task pane to ensure you are viewing the correct employee's results.

Note: Results Codes:

- Green Light – Results Exist
- Red Light – No Results Exist
- Grey Diamond – No Authorization to Display that Employee

Step 6. Click the **Display Overview** button.

Image

Step 7. Select the **RT Results Table** row.

List of Common tables:

- WPBP
- RT
- ARREARS
- DDNTK

Step 8. Click **Display**.

Note: The Results table lists each wage type used in processing this payroll period for the employee.

Image

Step 9. Click the **Exit** button.

Step 10. The system task is complete.
