

B0152 Retroactive Position Time Setting Changes Metrics

Purpose

The purpose of this report description is to explain how to generate the Retroactive Position Time Setting Changes – Metric report.

Report Description

This report displays metrics derived from retroactive position time settings that are pay-impacting for the organizational unit and calendar month/year interval selected. Metrics are displayed in the ranges of <30 days, 30-59 days and >59days.

Agency Performance Metrics

Report Uses

- This report can be used as a monitoring tool to evaluate retroactive position time setting changes which impact employee pay.
- This report helps the agencies narrow down at the Org Unit level where the retroactive position setting time setting changes were done and helps them take corrective action if necessary.

How to Generate This Report

This report is generated after selecting values for the mandatory prompts. All mandatory prompts must have values selected before the Run Icon can be used to generate the report. Mandatory prompts can be identified as mandatory by the exclamation mark inside of the yellow-orange triangle, the square with the checkmark, or the display of (Mandatory). Detailed instructions for interaction with each prompt can be found on the [Web Intelligence Prompt List](#) on the [OSC website](#).

The Mandatory prompts for this report are:

- Organizational Unit

- CalMonth/Year (Single Value/Interval, Mandatory)

Special Report Considerations/Features

- Positions assigned to the Contractor employee subgroup are excluded from this report by default.
- The 3 measures on the right-side columns are coded with alternate colors in the report to differentiate the row values appropriate to the level of Org Unit. The leaf nodes (lowest level Org Unit measures) will have the default color (black).

- Click the + to see the Organizational Unit hierarchy levels expanded.
