

B0165-1 Job Attributes Without Org Unit

Purpose

The purpose of this Report Description is to explain the purpose of and how to generate the Job Attributes without Organizational Unit report.

Report Description

The B0165-1 Job Attributes without Org Unit report displays details about selected job(s), including job min/max/ref information, without organizational units. This report lists all active jobs with or without any associated positions.

Report Location

OM: Job Attributes folder

Report Uses

- This report can be generated to view of list of job classifications statewide.
- The report can be used to compare the job classifications statewide to job classifications within a specific agency. The “B0165 Job Attributes” report also will need to be generated for the same job classification(s) for the specified organizational unit(s) to obtain the agency job information. The results from these two reports will then need to be evaluated manually.
- This report enables OSHR to effectively review and analyze changes related to the compensation plan.
- This report can be used by agencies to better forecast budgets and allow for more fiscally responsible ways to plan salaries for positions and/or equity for employees in the job classifications listed.

How to Generate This Report

This report is generated after selecting values for the mandatory prompts. All mandatory prompts must have values selected before the Run Icon can be used to generate the report. Mandatory prompts can be identified as mandatory by the exclamation mark inside of the yellow-orange triangle, the square with the checkmark, or the display of (Mandatory). Detailed instructions for interaction with each prompt can be found on the [Web Intelligence Prompt List](#) on the [OSC website](#).

The Mandatory prompts for this report are:

- Job Family(s) - (Mandatory)

This report can also be further limited by utilizing the Optional prompts to further limiting the amount of data that retrieved into the body of the report. Optional prompts are indicated as optional in parentheses beside the prompt.

The Optional prompts are:

- Job(s) - (Optional)
- Job Branch(s) - (Optional)
- Employee Subgroup(s) - (Optional)

Exclusion prompts exclude specified data by default while allowing customers the flexibility of changing them when necessary. Exclusion prompts are identified by the term Exclude followed by the prompt.

The Exclusion prompts are:

- Exclude Employee Subgroup(s) - (Optional)
