

B0202 Comp Time Aging

Purpose

The purpose of this Report Description is to explain how to run the Comp Time Aging report in the Integrated HR-Payroll System.

Report Description

This report displays the current Overtime Comp, Holiday Comp, Gap Hours Comp, and On-Call Comp quota balances and is associated with Three Reporting Views. In the first report tab, Columns representing current and future months display the number of hours set to age out in that month. A second report tab allows the user to display hours aging out by current and future months as well as the costs associated with the Comp hours. The final report is a graphical representation of the age out hours or related costs by current and future months.

Report Location

PT: Comp and Liability Aging

Report Uses

This report is used to help agencies better understand and plan for the usage of Comp Hours and/or the payout of those hours.

How to Generate This Report

This report is generated after selecting values for the mandatory prompts. All mandatory prompts must have values selected before the Run Icon can be used to generate the report. Mandatory prompts can be identified as mandatory by the exclamation mark inside of the yellow-orange triangle, the square with the checkmark, or the display of (Mandatory). Detailed instructions for interaction with each prompt can be found on the [Web Intelligence Prompt List](#) on the [OSC website](#).

The Mandatory prompts for this report are:

- Organizational Unit

This report can also be further limited by utilizing the Optional prompts to further limiting the amount of data that retrieved into the body of the report. Optional prompts are indicated as options in parentheses beside the prompt.

The Optional prompts are:

- Employee(s) PersNo.
 - NOTE: Since the system contains a large number of employees, using broad wildcard searches can be very slow and may result in an error if the search exceeds the system limit. If the employee number is not known and a name search must be done, narrow the search by using the wildcard with specific text strings when looking for an employee by name such as:
 - John*Smith*
 - *Smith
 - If the employee number is known, it is best to use the manual entry field in Employee(s) PersNo. – Optional section to enter the selection.

Image

Initial Layout

This report displays the current Overtime Comp, Holiday Comp, Gap Hours Comp, and On-Call Comp quota balances. Columns representing each current and future months' display, the number of hours set to age out in that month:

Image

This report has three tabs at the top of the screen and each one provides a different analysis of the data and provides a detailed and summary info of Employee name, EE Nbr, Quota type, Cal Mth/Yr, Remaining Hours and Estimated Cost.

Image

Follow the steps below to change the sorting for the desired column. There are 5 steps to complete this process.

Step 1: By default, data is sorted by Employee Name (This can be changed as needed).

Step 2: Right click on the “desired column”.

Step 3: Click on “Data”.

Step 4: Click on “Add Sort”.

Image

Step 5: Select ascending or descending sort order as needed.
