## **How to Generate This Report**

This report is generated after selecting values for the mandatory prompts. All mandatory prompts must have values selected before the Run Icon can be used to generate the report. Mandatory prompts can be identified as mandatory by the exclamation mark inside of the yellow-orange triangle, the square with the checkmark, or the display of (Mandatory). Detailed instructions for interaction with each prompt can be found on the [Web Intelligence Prompt List](#) on the [OSC website](#).

The Optional prompts are:

- Time Mgmt Status(s) - (Optional)

## Special Report Considerations/Features

- Contractors (employee subgroup G1) are excluded from the report by default, but they can be included by clearing the exclusion prompt. See 'Exclusion Prompts' section above for instructions on how to clear this default exclusion.
- This report includes only the following Attendance/Absence types:
  - A0000000 – A9999999
  - 9000 – 9999
  - PLHR: Planned Hours
  - Infotype 2001/2002 records that cover a range of dates are parsed into separate days based on the employee's work schedule. This report automatically applies to a condition to suppress the display of the rows where the difference between the employee's 2001/2002 time entered and the CATS approved time is 0.

Note: Below is an example of an employee who would **NOT** be listed in the report due to the applied condition.

For the dates from 05/01/2018 – 05/31/2018, Mickey Mouse's 2001/2002 Time Entered is 14.00 hours. The CATS Approved Time is also 14.00 hours. The difference in his 2001/2002 Att/Abs Time Entered and CATS Approved Time is 0, so this employee would not be included in the report.
