

BP179 Employee Action Detail

Purpose

The purpose of this Report Description is to explain how to display the Employee Action Detail report in the Integrated HR-Payroll System.

Report Description

This report shows employee action detail & action count for a specified Effective Date range or Processed Date range and includes Integrated HR-Payroll actions and PMIS converted actions. Provides jump to B0022: Comments report.

Report Location

PA: Employee Actions

Report Uses

Action Monitoring

- Approved PCR matches information in system
- View to see if comments are attached
- Provide specific action information as needed
- Who is completing the actions

How to Generate This Report

This report is generated after selecting values for the mandatory prompts. All mandatory prompts must have values selected before the Run Icon can be used to generate the report. Mandatory prompts can be identified as mandatory by the exclamation mark inside of the yellow-orange triangle, the square with the checkmark, or the display of (Mandatory). Detailed instructions for interaction with each prompt can be found on the [Web Intelligence Prompt List](#) on the [OSC website](#).

The Mandatory prompts for this report are:

- Organizational Unit

This report can also be further limited by utilizing the Optional prompts to further limiting the amount of data that retrieved into the body of the report. Optional prompts are indicated as option in parentheses beside the prompt.

The Optional prompts are:

- Processed Date
- Effective Date
- Action Type(s)
- Action Reason(s)
- Personnel Area(s)
- Employee(s) PersNo.
- Job(s)
- Employee Pay Type(s)
- Employee Pay Area(s)

Exclusion prompts exclude specified data by default while allowing customers the flexibility of changing them when necessary. Exclusion prompts are identified by the term Exclude followed by the prompt.

The Exclusion prompts are:

- Employee Subgroup (Contractor, National Guard)

Special Report Considerations/Features

- Action records in PMIS have been converted to the Integrated HR-Payroll System action code equivalent for employee actions. Where no equivalent was available for an employee action, a Z# or X# employee action type was generated using the original PMIS action description.
- Annual Salary is displayed in two decimal places in this report, the report will have Hourly Salary for Temps.
- The 'Emp/Job Ref Salary' represents the Employee Reference Rate for Banded pay types; for all other pay types, it represents the Job Reference Rate.
- If you search for any values in the Optional Prompts without first entering Prompt Values for Organizational Unit AND Processing Date or Effective Date, then the search will not return any values.
- If one or more completed PCRs exist for an action, the "Processed Date" available object is populated with the "changed on" date from the most recent completed PCR. Also, the "Changed By" available object is populated with the user who made the change on the completed PCR. If no completed PCR exists for the action, then the Processed Date is populated with the "Changed on" date from the action, and the "Changed by" is populated with the user who made the change on the action.
- When there are multiple salary changing actions with the same Effective Date, the Infotype 0008 change history table is reviewed to determine which salary change went with which action. However, if for some reason the number of actions does not equal the number of IT0008 change records for that same date, then we are unable to determine which action caused what salary change. So, the most recent IT0008 salary is shown for all actions on that day. When this scenario happens, the action records will be flagged, and the "Flag" data element (from Available Objects) will show an 'X' value to signify this.
- When you enter values for both Processing Date and Effective Date prompts, then you will get the following notification message at the top of the report.
