

What impact will the change to NCFS have for Community College process for our ACFR information to the State Controller's Office

There is no anticipated impact for the Community Colleges' processes for providing ACFR information to OSC with the implementation of NCFS. We will continue to review this process each year for improvements and updates will be provided to the Community Colleges as necessary.

Will OSC continue to support the North Carolina Accounting System Decision Support System (NCAS DSS)?

DSS reporting functionality will be replaced by NCFS reporting tools.

Will reports be available in NCAS DSS & NCXCloud?

We do not intend to utilize NCXCloud for storing NCFS reports. NCAS and NCXCloud will be available in read-only mode after NCFS goes live for the purpose of historical reporting.
